City Of Fort Collins
600 N Sherwood St.
Fort Collins, CO 80521

Customer ID: **41529**
Certificate: **84-C-0108**
Site: 001
CITY OF FORT COLLINS

Type: ROUTINE INSPECTION
Date: 27-OCT-2016

3.125(a)

FACILITIES, GENERAL.

Goat enclosure:

- Several areas of the wire fencing in this enclosure were in disrepair, creating gaps and some sharp, protruding points within contact of the animals which could cause injury.
- Along a bottom section (approximately 4 feet long) of fencing, soil erosion has created a gap or opening large enough that the animals may potentially become trapped or injured.

Sheep enclosure:

- There was a section of thin, wire fencing in disrepair which covered a green metal gate and created loose, detached areas with openings/gaps. Additionally, there were sharp pointed wire ends of fencing material in some sections of this enclosure which were also in areas of potential contact with the animals and could lead to injury.

All enclosures must be kept in good repair and free of sharp points, protruding edges or gaps/openings in order to protect the animals from injury and properly contain the animals. A system of timely identification, facility repair and maintenance must be in place.

To be corrected by 11/03/2016

This inspection and exit briefing were conducted with facility representatives and VMO Tyler Fields.

Additional Inspectors

Fields Tyler, Veterinary Medical Officer
