Massillon, OH 44646

Customer ID: **2217**
Certificate: **31-C-0050**
Site: 001
STUMP HILL FARM

Type: ROUTINE INSPECTION
Date: 07-JAN-2016

3.127(d) REPEAT

FACILITIES, OUTDOOR.

*** The perimeter fence is currently inadequate and does not function as a secondary containment system. Although an 8 ft. high perimeter fence is present surrounding the facility, several mature trees remain within 3 feet of the perimeter fence that have no preventives to stop an animal from climbing the trees and leaping over the perimeter fence. A substantial perimeter fence that is maintained in good repair and not less than 8 feet in height is required for all outdoor housing facilities that contain potentially dangerous animals. Perimeter fencing protects the animals in the facility by ensuring in the event of an accidental escape there is a secondary containment mechanism to prevent the animal from leaving the property and endangering public safety thereby placing the animal's life in jeopardy. Correct by removing or altering trees in a manner ensuring the perimeter fence can adequately function as a secondary containment system.

THIS IS A REPEAT NON-COMPLIANT ITEM THAT REMAINS UNCORRECTED.

The inspection and exit interview conducted with the licensee, Randy Coleman, ACI, and Mike Neafsey, VMO.

Additional Inspectors

Neafsey Michael, Assistant Director
