Type: ATTEMPTED INSPECTION

Date: 28-MAR-2024

2.1(b)(1)

Requirements and application

When contact was made with the facility representative during an unannounced inspection, they confirmed that the animals were moved to a new location approximately 1.5 weeks prior and had not updated their new site address with USDA APHIS Animal Care. Failure to notify Animal Care of significant changes in business can interrupt the inspection process and prevent APHIS Officials from carrying out their duties. A licensee shall notify Animal Care no fewer than 90 days before any change in the name, address, or location of business.

Correct by 8 April 2024.

2.126(b)

Access and inspection of records and property; submission of itineraries.

A responsible adult was not available to accompany APHIS Officials during the inspection process at 2:04pm on 28-MAR-2024. The phone number was called and a voicemail left, whereby the facility representative called back right away. The facility representative stated that the animals and responsible staff had been transferred to a new site approximately 1.5 weeks prior and apologized for not informing APHIS Officials. Failure to provide access to the facility, animals, and records for inspection is a serious violation of the AWA and regulations. Failure to comply may result in enforcement action.
