SAFARI GAME SEARCH FOUNDATION, INC.

Type: ROUTINE INSPECTION

Date: 09-JUN-2015

2.40(a)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Inspection of the onsite hospital medication room found several bottles of outdated medications. A complete review needs to be done and all outdated medications removed. Outdated medications are not considered adequate veterinary care and should not be used in animal treatments. A regular schedule of review and removal of outdated medications needs to be in place and followed.

Correct by: 30/June/2015

3.75(a)

HOUSING FACILITIES, GENERAL.

The temporary housing for the two red ruffed lemurs has heat lamps supplied by extension cords. The use of extension cords for a temporary issue is acceptable but the cords are running along the side of the main enclosure in such a manner that the lemurs could reach the cords. This presents a possible safety hazard for the lemurs and these cords need to be relocated so the lemurs cannot reach them.

Correct by: 22/June/2015

3.75(c)(1)(2)

HOUSING FACILITIES, GENERAL.

The hardware cloth covering the door on the inside of the ring-tailed lemur enclosure is pulled away from the frame along the upper right hand corner. These results in a ragged and potentially sharp spot in the enclosure that the lemurs could get a limb caught or receive a cut. This wire needs to be repaired or replaced and a regular schedule of maintenance be in place and followed.

Correct by: 12/June/2015

Prepared By: TOM LECROY, A C I USDA, APHIS, Animal Care

Inspection Report

3.75(c)(2)

HOUSING FACILITIES, GENERAL.

The floor of the interior enclosure on the red ruffed lemur island has peeling paint and exposed wood surfaces. This condition does not allow for the proper cleaning and sanitizing required by USDA regulations. All surfaces must be maintained in good repair on a regular maintenance schedule.

Correct by: 10/July/2015
