Certificate: **84-C-0150**

Site: 001

THE WYMAN LIVING HISTORY RANCH & MUSEUM

Type: ROUTINE INSPECTION

Date: 24-OCT-2017

2.126(a)(2)

ACCESS AND INSPECTION OF RECORDS AND PROPERTY; SUBMISSION OF ITINERARIES.

***At the time of inspection, the Program of Veterinary Care, the acquisition record, and record of "animals on hand" for the regulated elk were unavailable for inspection by the veterinary medical officer.

Acquisition records of regulated animals present and the Program of Veterinary Care appropriate for the animals being exhibited must be available for review during an inspection. Each exhibitor shall allow APHIS officials to examine records required to be kept by the Animal Welfare Act.

To be corrected: November 1, 2017

3.131(d)

SANITATION.

***There were 2 piles of animal feces on top of the stored alfalfa bales used to feed an intact male elk, named JR. The facility owner stated that the feces is most likely from raccoons which are on the premises.

Pests can transmit diseases to regulated animals, especially when their feed and water is contaminated. The licensee must establish and maintain an effective program for the control of pests to promote the health and well-being of the elk and reduce contamination by pests in all animal areas. Additionally, the licensee must ensure that the food provided to the elk is free from contamination and stored in a manner that prevents pests from accessing it.

To be corrected by: November 1, 2017

This inspection and exit interview were conducted with the facility owner.
