Site: 002

THE ECLECTIC BUG LLC

Type: ROUTINE INSPECTION

Date: 26-MAY-2021

---

### 3.125(a) Critical

#### Facilities, general.

-A Fennec fox was playing in its housing when the staff identified it was limping. The Fennec fox was taken to the attending veterinarian's clinic and an x-ray revealed a broken right rear leg. Surgery was performed to pin the leg. The Fennec fox was not healing properly. During the third surgery to amputate the leg, the decision to euthanize was made and performed.

-The housing for the Fennec fox led to a serious injury in the animal. Housing facilities must be structurally sound and in good repair to protect the animals from injury. A routine review of the enclosure must occur to identify potential areas of injury and measures taken to correct these.

Correct from this day forward.

This inspection and exit interview were conducted with facility representative.
