3.14(c)

Consignments to carriers and intermediate handlers.

The carrier has not obtained certification statements with the required information for the dogs and cats previously transported. Receipt of feeding and watering instructions for each animal received is imperative, as well as confirmation that food and potable water were offered within four hours prior to transport. Doing so addresses the animals' needs during transit, as well as aids in their comfort and wellbeing.

Carriers and intermediate handlers must not accept a dog or cat for transport unless the consignor certifies in writing to the carrier or intermediate handler that the dog or cat was offered food and water within four hours preceding delivery to the carrier or intermediate handler. Instructions provided must be in compliance with 3.17 and provide the required information for each dog and cat.

Correct by December 2, 2022.

This inspection and exit interview were conducted with the registrant and facility representative.
