Type: ROUTINE INSPECTION
Date: 15-MAR-2021

3.1(f)

Housing facilities, general.

An accumulation of pest droppings was observed around the food storage containers in the breeder building. A hole which allows for drainage of the wash downs was noted in this area without a cover. Vermin can contribute to the spread of disease and can have a negative affect on the health of the dogs. The licensee does have a pest control system in place, however it not sufficiently managing pests. Drainage systems must be constructed in a manner which minimizes vermin and pest infestations. The licensee must correct this issue.

*****Correct by April 1, 2021

This inspection and exit interview were conducted with the licensee.
