Type: ROUTINE INSPECTION
Date: 20-OCT-2016

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

"Buddah", an eight year old black and brown King Charles Spaniel male (ID # 027-070-522) has an excessive buildup of dark brown material on two cheek teeth extending up to the gum line. There's a white creamy material along the gum line on the remaining cheek tooth in the left side of the mouth. The licensee stated that she was unaware of the condition.

Dental problems can be painful and lead to a decrease in appetite. The licensee must have the animal examined by a veterinarian and appropriate treatment plan administered. The outcome of the examination must be documented and provided to the inspector upon request. The licensee must ensure that all dogs receive adequate veterinary care at all times.

To be corrected by: October 31, 2016.

This inspection and exit interview were conducted with the licensee.
