#### PRIMARY ENCLOSURES USED TO TRANSPORT LIVE DOGS AND CATS.

On 3/28/19 twenty-five crates containing 49 dogs arrived to San Francisco International Airport on Turkish Airlines flight number 0079 from Istanbul. Waybill numbers were: 235-3594-0166, 235-3594-5335, 235-3594-4215, 235-3594-3563, 235-3594-4624, 235-3594-3784, 235-3594-4300, 235-3602-2265, 235-3602-2254, and 235-359-2933.

The 18 puppies on waybill # 235-3594-0166, and the 8 puppies on waybill # 235-3594-4215 were arriving with USDA import permits for adoption or resale. These puppies are required to be at least six months of age in order to receive such a permit, and the consignor has identified the puppies as six months of age or older. These puppies were all shipped two per crate, which does not conform with the requirements, which state that no more than one live dog or cat, 6 months of age or older, may be transported in the same primary enclosure when shipped via air carrier.

This inspection and exit interview were conducted with the personnel representing the carrier at the cargo office.
