Site: 001

STAPP CIRCLE S RANCH INC

Type: ROUTINE INSPECTION

Date: 15-SEP-2015

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

No records of the animals on hand were available during this inspection.

Every dealer other than operators of auction sales and brokers to whom animals are consigned, and exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning animals other than dogs and cats, purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born of any animal while in his or her possession or under his or her control.

It is important to kept records of the regulated animals to be sure of the animals final destination and to be able to trace them back in case of illness outbreaks, or to control the movement and legal ownership of the dangerous animals

Correct by: 9/18/2015.

3.130

WATERING.

A tiger the name Quincy was found with no water available in his enclosure, also no water was available for the 2 black bears and 2 wolves in their enclosures. When the bears were offered water they drank eagerly. It was not possible to add water to the tiger or the wolves at the time of the inspection to check the level of thirst.

If potable water is not accessible to the animals at all times, it must be provided as often as necessary for the health and comfort of the animal. Frequency of watering shall consider age, species, condition, size, and type of the animal.

No access to the water in the high temperatures of the summer can induce dehydration of the animals. .

Inspection Report

Correct by: Immediately

3.131(a)

SANITATION.

Most of the enclosures containing the 5 tigers, 3 lions, and 2 Bears had an accumulation of feces and food waste. The facility apparently has not been cleaned for one week.

Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors.

Accumulation of feces and food waste can attract pests, insects and other wildlife that can transmit infections and parasites with the subsequent risk to the health and wellbeing of the regulated animals.

Correct by: COB 9/16/2015.

Inspection and exit interview conducted with a facility representative and Dr. Peter R Kirsten. SACS and Juan Arango ACI.
