Type: ROUTINE INSPECTION
Date: 10-JUL-2024

2.131(d)(4)

Handling of animals.

If public feeding of animals is allowed, the food must be provided by the animal facility and shall be appropriate to the type of animal and its nutritional needs and diet.

Photos posted on the facility's Facebook page show the spider monkey being fed items not appropriate. Items include a popsicle, a cracker and a cup of whip cream. The licensee confirmed that the photos are real. Not maintaining a complete, nutritionally balanced diet can be a detriment to the animal's health and welfare.

Ensure that all food offered to the animal is part of a nutritionally complete appropriate diet.

Correct by: Close of business July 11, 2024

3.79(d)

Mobile or traveling housing facilities.

Nonhuman primates used in traveling exhibits, trained animal acts, or in uncaged public exhibits must be under the direct control and supervision of an experienced handler or trainer at all times when the public is present. Trained nonhuman primates may be allowed physical contact with the public, but only if they are under the direct control and supervision of an experienced handler or trainer at all times during the contact.

Review of the facility's Facebook page has pictures of the spider monkey being kissed and a lemur on top of a youth's head. The licensee confirmed that the photos are real. In neither scene is there a handler in view nor control of the monkeys. The licensee stated that they intend to use a harness and tether once the animals are older. Not maintaining control of the animals increases the risk of injury to the animal and to the public.

Ensure that all animals being exhibited are under the direct control at all times whenever the public is present.

To be corrected by: Close of business July 11, 2024

This inspection and exit interview were conducted with licensee.
