Fort Worth, TX 76155

Customer ID: 1538
Certificate: 74-T-0007
Site: PHL

AMERICAN AIRLINES INC. CARGO

Type: ROUTINE INSPECTION
Date: 12-OCT-2017

2.78(c)

HEALTH CERTIFICATION AND IDENTIFICATION.

There was no health certificate for a light brown puppy approximately 8 weeks of age shipped from Ohio to Pennsylvania (see air waybill # 001 CVG 11921140) on October 12, 2017. No carrier to whom a dog or puppy is delivered for transportation shall receive a live dog, cat, or nonhuman primate for transportation, in commerce, unless it is accompanied by a health certificate issued by a licensed veterinarian. Failure to obtain a health certificate issued by a licensed veterinarian may result in a sick or ill animal being transported in commerce.

3.14(a)(6)

PRIMARY ENCLOSURES USED TO TRANSPORT LIVE DOGS AND CATS.

There were no markings on top of the transport enclosure for a light brown puppy with the words "Live Animals" shipped from Ohio to Pennsylvania on October 12, 2017 (see air waybill # 001 CVG 11921140). Primary enclosures must be clearly marked on top and on more or more sides with the word "Live Animals" in letters at least one inch high and with arrows or other markings to indicate the correct upright position of the enclosure. Carriers and intermediate handlers must not transport any dog or cat in commerce unless the primary enclosure is clearly marked on top with the words "Live Animals" in letters at least one inch high to prevent the enclosure from being transported incorrectly.

3.16(c)

FOOD AND WATER REQUIREMENTS.

There were no food and water receptacles attached inside the transport enclosure for a light brown puppy approximately 8 weeks of age shipped from Ohio to Pennsylvania on October 12, 2017 (see air waybill # 001 CVG 11921140). Carriers and intermediate handles must not accept any dog or cat for transport without having food and water receptacles attached inside the primary enclosure so that the receptacles can be filled from outside the enclosure without opening the door to prevent escape during transport.

This inspection and exit interview were conducted with the supervisor.
