Los Angeles, CA 90027

Customer ID: **3532**
Certificate: **93-C-0043**
Site: 001
LOS ANGELES ZOO

Type: ROUTINE INSPECTION
Date: 15-MAR-2018

3.84(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

In the Primate Shack, the following was noted in the food preparation area: 1) There were hard water / mineral deposits on and around the sink and on a pan used to store clean food receptacles. 2) A plastic cup used to store knives had a moderate accumulation of debris on the bottom of it. 3) One knife handle was wrapped in masking tape. 4) At least three shelves in the refrigerator were worn and there was a moderate amount of rust present. 5) The main food preparation table is worn with areas of rust. 6) The surfaces of the wall and ceiling, in front of the sink, had a mild amount of debris.

The surfaces in a food preparation area where food, utensils, and receptacles are stored should be maintained in a manner that allows the required cleaning and sanitizing to minimize the risk of food contamination.

Premises where housing facilities are located, including buildings, must be kept clean to facilitate the husbandry practices required in this subpart. A system should be in place and maintained to ensure housekeeping in animals areas is being completed as required.

To be corrected by April 30, 2018

Additional Inspectors

Schnell Michael, Veterinary Medical Officer
