### 2.1(a)(1)

#### Requirements and application.

This is a search inspection.

The applicant currently sells regulated mammals (Bengal cats and Asian Leopard cats) without a valid USDA license. The business website also advertises nationwide shipping. The applicant was previously informed through two pre-license phone conversations on May 17, 2022 and December 9, 2022 that a license is required to sell or negotiate the sale of exotic mammals, and in the case of domestic pet species, a license is required to engage in non-direct sales unless certain exclusions apply.

A valid license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. The facility needs to obtain a USDA license or discontinue regulated activities.

No regulated activities may be conducted until USDA license/registration is obtained.

This inspection and exit interview were conducted with the applicant.
