

## Inspection Report

Project Chimps  
Po Box 2140  
Blue Ridge, GA 30513

Customer ID: **334775**  
Certificate: **57-C-0350**  
Site: 001  
PROJECT CHIMPS

Type: ROUTINE INSPECTION  
Date: 25-APR-2019

---

### 3.75(e) REPEAT

#### HOUSING FACILITIES, GENERAL.

In the chimp housing areas an open shelf was identified, upon which was placed containers of materials toxic to the chimps including bleach and other disinfectants. Due to its close proximity to the chimps within the indoor enclosure themselves, such substances can pose toxic hazards if animals are exposed to them. The shelving did not have any doors or cabinets attached to allow enclosed storage.

Substances that are toxic to the nonhuman primates but that are required for normal husbandry practices must not be stored in food storage and preparation areas, but may be stored in cabinets in the animal areas.

This inspection and exit interview were conducted with the facility representatives.

#### Additional Inspectors

Thomas Carla, Veterinary Medical Officer
