GRIZZLY FLATS FARM LLC

Type: ROUTINE INSPECTION

Date: 01-MAY-2023

3.127(b)

Repeat

Facilities, outdoor.

An enclosure housing 16 alpacas and 25 llamas did not have adequate shelter for the climatic conditions. The inspector's kestrel displayed a temperature 44.9 degrees Fahrenheit with a wind chill of 35.5 degrees Fahrenheit. The enclosure contained four plastic hut type shelters that measured approximately 9ft by 7ft. These four shelters were not large enough to accommodate all the animals in the enclosure. Inadequate shelter can lead to unnecessary animal discomfort. Natural or artificial shelter appropriate to the local climatic conditions for the species concerned shall be provided for all animals kept outdoors to afford them protection and to prevent discomfort to such animals. The licensee must ensure all llamas and alpacas have adequate shelter from inclement weather provided for their comfort and well-being.

This inspection and exit interview were conducted with the licensee.

Additional Inspectors:

JUSTINE O MALLEY, VETERINARY MEDICAL OFFICER
