#### Environment enhancement to promote psychological well-being.

The applicant was unable to provide a written environmental enhancement plan for avian species that will be held at the facility. A written plan is necessary to ensure that the overall health, well-being, and psychological needs of the birds are being appropriately met. Failure to follow a species-appropriate environmental enhancement plan can lead to psychological distress and abnormal behaviors in birds housed at the facility. Facilities that house avian species must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be in accordance with the currently accepted professional standards as cited in appropriate professional journals or reference guides and be approved by the attending veterinarian. The plan must address social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. Correct by ensuring that an environmental enhancement plan is created, approved by the attending veterinarian, and is made available to APHIS officials upon request.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 19-August-2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.

Additional Inspectors:

Jonathan Tomkovitch, VETERINARY MEDICAL OFFICER
