

Inspection Report

Bonnie Springs Zoo
16395 Bonnie Springs Road
Blue Diamond, NV 89004

Customer ID: **325447**
Certificate: **88-C-0196**
Site: 001
BONNIE SPRINGS ZOO

Type: ROUTINE INSPECTION
Date: 18-NOV-2014

3.56(a)(1)

SANITATION.

Rabbit enclosure closest to gate had a build up of excreta, especially in the corners. Primary enclosures shall be kept reasonably free of excreta, hair, cobwebs, and other debris by periodic cleaning. The cleaning schedule for this enclosure is inadequate, as evidenced by the build up present. The cleaning schedule of this rabbit enclosure should be more effective to prevent the build up of excreta.

Corrected during the inspection.

3.125(c)

FACILITIES, GENERAL.

There was a plastic food bucket with a large cutout opening on the lid. This bucket contained timothy pellets used to refill public feed dispensers and remains in the food storage area not adequately covered. Food must be stored in a manner that protects the supplies from spoilage, contamination, and vermin infestation. An improved system of food storage must be in place to ensure the health and well-being of the animals.

Correct by 11/26/2014

3.131(d)

SANITATION.

Food storage and preparation building had an excessive accumulation of rodent feces on the floor. This poses a risk to the health and well-being of the animals. These areas must be cleaned on a daily basis and an effective program to control the pests must be in place.

Correct by 11/26/2014

Exit interview conducted with facility representative.
