Type: ROUTINE INSPECTION
Date: 14-MAY-2019

3.2(d)

INDOOR HOUSING FACILITIES.

* The interior four walls of the indoor whelp building needs to be finished housing eight adult and twenty three puppies. The wood frame boards and insulation were exposed. Surfaces that are not impervious to moisture can absorb liquids. This could create disease hazards and unsanitary living conditions which can affect the health and well-being of the dogs. Indoor facilities must have floors, walls, and ceilings that are impervious to moisture. Surfaces must be impervious to moisture so that they cannot absorb urine or water, can be readily cleaned and sanitized. The licensee must ensure that the floors and walls of indoor housing facilities and any other surfaces in contact with the animals, must be impervious to moisture. Correct by 6/14/19.

* Facility inspection and verbal exit briefing done on 5/14/19 were conducted with the licensee.

* Copy of the inspection report was sent by electronic email.
