Customer ID: 647

Certificate: 33-T-0011

Site: IAH

GEORGE BUSH INTERCONTINENTAL AIRPORT

Type: ROUTINE INSPECTION

Date: 06-MAR-2017

3.13(c) REPEAT

CONSIGNMENTS TO CARRIERS AND INTERMEDIATE HANDLERS.

During this inspection one adult dog arrived to IAH from BZE via United on AWB 016-73643625. No certification was attached to the transport enclosure documenting the last time food and water was offered and specific instructions for the next feeding and watering for a 24 hour period.

To ensure dogs are fed and watered during transport according to the standards and regulations of section 3.16 under the AWA the required certifications for travel must be complete and securely attached to the outside of the enclosure. A carrier must not accept a dog for travel without a certification signed by the consignor containing the date and time of last watering and feeding and food and water instructions for the next 24 hours. The certification must be securely attached to the outside of the enclosure and easily readable. In cases of extended travel and unforeseen delays these instructions will provide information to those unfamiliar with the animals that may prevent potential dehydration and nutritional compromise.

3.16(c)

FOOD AND WATER REQUIREMENTS.

During this inspection one adult dog arrived to IAH from BZE via United on AWB 016-73643625. The plastic food and water receptacle (one receptacle divided in two sections) was unattached and overturned on the floor of the enclosure. Food and water receptacles must be securely attached inside the primary enclosure and placed so that the receptacle can be filled from outside the enclosure without opening the door.

Providing food and water to this dog using the receptacle would require opening the enclosure for access. Unnecessary opening of the enclosure could increase risk of animal escape or may be complicated because of the animal's demeanor. Receptacles must be securely attached to expedite provisions for feeding and watering when necessary.

The inspection and exit interview were conducted with the SMC Office Supervisor and United Cargo Senior
