Site: 003

The Nature of Wildworks

Type: ROUTINE INSPECTION

Date: 08-DEC-2022

2.134

Contingency planning.

The licensee has components of a contingency plan but it is incomplete and does not address all the possible situations that would trigger the need for the measures identified in the contingency plan, specific tasks, chain of command and training. The licensee must develop, document and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing and care of their animals in the event of an emergency or disaster. The contingency plan must include all of the information and documentation as detailed in Section 2.134 (a-c) of the Animal Welfare Regulations and employees must be trained on the plan.

Correct by 15 January 2023

3.131(c)

Sanitation.

The floor in the kitchen area used to prepare diets for the mammals had areas of damaged tile and exposed concrete floor. The floor with exposed concrete is no longer in good repair and the porous concrete does not facilitate cleaning and disinfection of a kitchen area. Floors in kitchens must be maintained in good repair and able to be cleaned and disinfected, consistent with good husbandry practices.
