

## Inspection Report

Terry Anderson  
2985 N Sheridan Road  
Stanton, MI 48888

Customer ID: 15199  
Certificate: 34-C-0183  
Site: 001  
TERRY ANDERSON

Type: ROUTINE INSPECTION  
Date: 13-JUN-2017

### 2.131(c)(1)

#### HANDLING OF ANIMALS.

The hedgehogs, rabbit, guinea pigs, chinchillas and degus are accessible to the public. The hedgehogs were stolen from the facility, but returned a few days later.

During public exhibition, any animal must be handled so there is minimal risk of harm to the animal and to the public, with sufficient distance and/or barriers between the animal and the general viewing public so as to assure the safety of animals and the public.

A barrier must be provided to protect the animals from being handled or stolen to assure their safety.

To be corrected by end of business June 14, 2017.

### 3.27(b)

#### FACILITIES, OUTDOOR.

The four guinea pigs are currently being house outside.

Guinea pigs shall not be housed in outdoor facilities unless such facilities are located in an appropriate climate and prior approval for such outdoor housing is obtained from the Deputy Administrator.

House the guinea pigs inside, or request a variance from the Eastern Regional Office for a variance to house the guinea pigs outside.

To be corrected by end of business today.

### 3.54(a)

#### FEEDING.

Prepared By: BONGARD CARRIE, A C I USDA, APHIS, Animal Care

Date:  
13-JUN-2017

Title: ANIMAL CARE INSPECTOR 1053

Received by Title: PART OWNER

Date:

## Inspection Report

---

The rabbit food is in the sheep and camel barn. The bag of food is open and sitting on the floor.

Rabbit food shall be free from contamination, wholesome and of nutritive value to meet the needs of the rabbit.

Store open bags of rabbit food in containers with lids to ensure they are not contaminated by rodent or avian pests.

To be corrected by end of business June 14, 2017.

### 3.129(a)

#### FEEDING.

The food for the potbellied pig is sitting on the floor in an open bag.

Food shall be wholesome, palatable, and free from contamination and of sufficient quantity and nutritive value to maintain all animals in good health.

Store food in containers with lids to prevent contamination by rodents and avian pests.

To be corrected by end of business today June 14, 2017.

### 3.129(b)

#### FEEDING.

The food receptacle for the bobcat has an accumulation of old chicken and canned cat food in it. The food in the receptacle is dried up and caked in the receptacle.

Food receptacles shall be kept clean and sanitary at all times.

Food receptacles must be cleaned as often as necessary to prevent contamination of food fed to the bobcat.

To be corrected by end of business today.

### 3.131(a)

#### SANITATION.

The ferret enclosure has a large accumulation of feces and urine on the floor.

Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors.
