Pens 2, 7, 10 and 11 did not have water in their water receptacles. The dogs drank for 30-60 seconds straight in these enclosures.

If potable water is not continually available to the dogs and cats, it must be offered to the dogs and cats as often as necessary to ensure their health and well-being, but not less than twice daily for at least 1 hour each time, unless restricted by the attending veterinarian.

Water the dogs daily and as often as necessary to keep the dogs healthy.

To be corrected from now on.
