Certificate: **64-C-0244**

Site: 001

GRAHAM CREEK NATURE
PRESERVE

Type: ROUTINE INSPECTION

Date: 17-AUG-2023

2.75(b)(1)

Records: Dealers and exhibitors.

The facility did not have complete acquisition records for the newly acquired rabbit. Acquisition and disposition records, including offspring born at the facility, are necessary to accurately track and identify animals being used in regulated activities, as well as aid in the detection of movement of animals upon relocation to a new site.

The facility shall make, keep and maintain records that fully and correctly include all the required acquisition and disposition information, including: the name and address of the person from whom the animals were acquired, the USDA license number of the person if licensed or the vehicle license number and state and driver's license number and state if not licensed, the name and address of the person to whom an animal was given/sold, the date of acquisition or disposition, the species of animal and the number of animals involved.

Correct by September 1, 2023.

2.134

Contingency planning.

The facility has not documented their contingency plan in full to include the required components. A plan is important to be in place in preparation for unexpected disasters or events, as well a detailed strategy to address the needed handling, treatment, transportation, housing, and care of the animals in the event of an emergency or disaster. The facility shall develop and document an appropriate contingency plan available for review upon USDA inspections.

Correct by September 8, 2023.

This inspection and exit interview were conducted with the authorized person.
