

Inspection Report

The Dallas World Aquarium
1801 N Griffin St
Dallas, TX 75202

Customer ID: **6545**

Certificate: **74-C-0392**

Site: 002

DWA's Avian Breeding Center

Type: RE-LICENSE INSPECTION

Date: 21-MAY-2024

3.153(a)(1)(i)

Primary enclosures.

***In the outdoor facility, there was one enclosure containing one Lesser Bird of Paradise. The door of the enclosure was constructed of a hard plastic-like material and had a hole approximately 3" x 3.5" about 12" below the latch on the door. Holes in enclosures increase the risk of escape.

The licensee must repair the hole and ensure that enclosures are maintained to contain the birds securely as required.

3.153(a)(1)(iii)

Primary enclosures.

***In the outdoor facility, there was one enclosure containing one Lady Rose Turaco. Close to the rope perch, there were two places on the left wire wall where the wire had become detached and was bent into the enclosure creating sharp points. Detached wire of an enclosure increases the risk of injury to the animals.

The licensee must ensure that the enclosures are constructed and maintained so that they have no sharp points or edges as required.

These non-compliant items were corrected during the inspection and must remain corrected from May 21, 2024 forward.

This is a 1st Re-License Inspection for a Class C license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by July 20, 2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.

Additional Inspectors:

Samantha Talley, VETERINARY MEDICAL OFFICER

Prepared By: BEVERLY HICKS

USDA, APHIS, Animal Care

Title: ANIMAL CARE INSPECTOR

Date:
