### 3.1(c)(1)

#### HOUSING FACILITIES, GENERAL.

1. The puppy maintenance room is in need of attention. This is the room behind the 6 puppy rooms. The puppies are allowed access to this area on occasion, this is where the diets are prepared, the medications are administered, and overall care takes place in this area. However, the tiles behind the wooden steps, into each puppy room, have begun to show damage. Several of the tiles are cracked, pieces are broken off and some tiles are missing. This now exposes jagged edges, unsealed areas, and the area cannot be readily cleaned or sanitized. To ensure that the area can be readily sanitized all tiles in the room will need to be addressed.

\*\*\*To Be Corrected By: March 11, 2016

2. In this same room there is a cabinet drawer face, to the left of the sink, that is in need of repair. The right upper corner has been damaged. There is now exposed jagged, bare wood edges present. Again, to ensure that this area can be readily sanitized this drawer face will need to be repaired.

\*\*\*To Be Corrected By: March 11, 2016

3. Again in this same room, the upper Formica cabinets to the left and right of the sink are in need of repair. The Formica sides are showing signs of water damage. The bottom edges have begun to swell and are expanding away from the frame. To ensure the integrity of the shelving unit and to ensure that the area can be readily sanitized
