### 2.40(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

- The following medication was past the labeled expiration date: panacur Feb. 2014. This medication was intermingled with other products that are currently being used at the facility and are therefore ready for use. Expired drugs may not work as anticipated, could become contaminated, and could harm the animals. Medications must be labeled with appropriate and accurate information in order to ensure that the contents of the container can be known with certainty, that the drugs are used at safe doses, and that medications are not used past their expiration dates. The licensee must ensure that all medications used in the facility are not expired, labeled properly in accordance with standard veterinary practices, and are stored in accordance with manufacturer's recommendations. Corrected during the inspection.

### 3.127(d)

#### FACILITIES, OUTDOOR.

- Portions of the perimeter fence do not meet requirements. In the back section of the park numerous trees are growing in, thru and over the perimeter fence which can affect the structural integrity of the fence. The perimeter fence for a facility housing dangerous animals must be structurally sound and in good repair. The licensee must ensure the perimeter fence meets all requirements.

Inspection and exit interview conducted with facility representative, USDA APHIS VMO Debbie Cunningham, and USDA APHIS ACI Cathy Niebruegge.
