RUSSELL EVANS

Type: ROUTINE INSPECTION
Date: 09-JUN-2015

3.131(a)

SANITATION.

The floor of the kinkajou enclosure is dirt with shavings. An excess accumulation of old and new feces is on the floor of this enclosure, and flies are present. Because the kinkajou is aggressive to the regular caretaker, this enclosure has not been cleaned in over a month. All enclosures need to be cleaned on a regular basis to prevent contamination of the animals, to minimize disease hazards and to reduce odors. This enclosure should be modified so that the enclosure can be safely accessed and cleaned on a regular basis. To be corrected by 6-10-15.

Exit briefing conducted with licensee.
