GO AQUATICS LLC

Type: ROUTINE INSPECTION
Date: 21-NOV-2024

2.126(a)

Repeat

Access and inspection of records and property; submission of itineraries.

The facility's written program of veterinary care, avian environmental enhancement plan, and contingency plan were not available for review at the time of inspection. These written programs records are necessary to assess compliance with the regulations and standards, thus helping to ensure proper veterinary care and animal welfare. Ensure the written program of veterinary care, avian environmental enhancement plan, contingency plan, and all required records are available for review by APHIS officials at the time of inspections.

Correct by: November 25, 2024.

3.28(c)(2)(iv)

Primary enclosures.

At the time of inspection, the licensee was housing a nursing female Russian dwarf hamsters and pups with approximately eight other non-nursing Russian dwarf hamsters. Housing other hamsters with a nursing female hamster and her litter may lead to injury or death of the nursing pups. A nursing female hamster, together with her litter, shall be housed in a primary enclosure that contains no other hamsters and that provides at least 121 square inches of floor space, and 25 square inches of floor space for nursing female dwarf hamsters.

Correct by November 25, 2024.

This inspection and exit interview were conducted with facility representatives.
