Type: ROUTINE INSPECTION
Date: 31-AUG-2023

2.40(a)(1) Repeat

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The licensee was again unable to provide a written program of veterinary care at the time of inspection. A written program of veterinary care is necessary to indicate that the care for both the health and well-being of all covered species is provided.

Each exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangement shall include a written program of veterinary care and regularly scheduled visits to the premises of the exhibitor.

3.131(a) Repeat

Sanitation.

The following area is still in need of cleaning:

The cavy enclosure, adjacent to the feed barn, still has a significant accumulation of feces and soil that is now about 8 inches deep throughout the enclosure. Excreta shall be removed as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors.

3.154

Environment enhancement to promote psychological well-being.

There is one chicken present at this facility. All birds must be provided with environmental enhancement to promote their psychological well-being. A written enrichment plan is not available for this chicken.

Dealers, exhibitors, and research facilities must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides. This plan must be made available to APHIS upon request.
