W B B FARM LLC

Type: ROUTINE INSPECTION

Date: 17-NOV-2015

2.40(b)(3)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*** A female pig had recently broken her leg. The licensee stated the animal had been seen by the vet and was being treated with antibiotics and pain meds. There was no records available for review that confirmed the vet had seen the animal or that treatment was being provided as stated. In the future when animals are assessed and treated some method of documentation needs to be recorded and maintained to assure the health care needs of the animals are being met. This is proper recordkeeping practices to assure communication with and by the vet is followed.

Correct from this day forward.

3.131(d)

SANITATION.

*** There was an accumulation of flies around the farrowing crates and a litter that was being supplemented with milk. A safe and effective method for controlling pests needs to be established and maintained to reduce the amount of flies for the health of the animals.

Correct by: Nov 22, 2015

An exit briefing was conducted with the licensee at the time of the inspection.
