THE FLORIDA AQUARIUM

Type: ROUTINE INSPECTION

Date: 28-FEB-2023

3.81

Environment enhancement to promote psychological well-being.

The facility has 3 ringtail lemurs and the environmental enrichment plan was not available for inspection. A documented non-human primate enrichment plan is imperative for all staff and volunteers to follow a set guidance for enrichment approved by the attending veterinarian. Dealers, exhibitors, and research facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of nonhuman primates. The plan must be in accordance with the currently accepted professional standards as cited in appropriate professional journals or reference guides, and as directed by the attending veterinarian. This plan must be made available to APHIS upon request.

To be corrected by 4-10-23

This inspection and exit interview were conducted with Facility Representative.
