Certificate: **88-A-0025**  
Site: 001  
James Enscoe, Linda Enscoe

Type: ROUTINE INSPECTION  
Date: 05-DEC-2017

---

### 3.131(a)

#### SANITATION.

There were three hedgehog cages which had an excessive buildup of excreta mixed with bedding material on the floors of these cages. Excreta should be removed as often as necessary to prevent contamination of the animals contained and to reduce disease hazards and reduce odors. The cleaning schedule of the enclosures should be more frequent and effective to prevent the buildup of excreta.

Correct by 12/09/2017.

This inspection and exit interview were conducted with a facility representative.
