Type: ROUTINE INSPECTION
Date: 03-APR-2025

2.134

Contingency planning.

The licensee is lacking a written contingency plan. Dealers must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster. Not having a written plan could cause delay of help for the animals and could negatively affect their health and well-being in the case of an emergency or disaster. Correct by ensuring that a written contingency plan is implemented, and includes all of the information and documentation as detailed in Section 2.134(a-c) of the Animal Welfare Act and Animal Welfare Regulations.

***Correct by May 5th, 2025.

3.154

Environment enhancement to promote psychological well-being.

The licensee is missing a complete species-appropriate environmental enhancement plan that is required for regulated birds. The plan, at a minimum, must address social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. A species-appropriate plan for environmental enhancement is necessary to promote the psychological well-being of the birds on the premises. Correct by developing a written plan that meets all requirements and is approved by the attending veterinarian.

***Correct by: May 5th, 2025

This inspection and exit interview were conducted with the facility manager.
