### 3.81

#### ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

The facility currently has an approved program of social housing, enrichment and psychological well-being for non-human primates on file. The plan addresses social grouping and environmental enrichment; however, it does not address special considerations, restraint devices, and exemptions.

Research facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of nonhuman primates. The plan must be in accordance with the currently accepted professional standards as cited in appropriate professional journals or reference guides, and as directed by the attending veterinarian.

The plan, at a minimum, must address each of the following:

(a) Social grouping (b) Environmental enrichment (c) Special considerations (d) Restraint devices and (e) Exemptions.

To be corrected by September 1, 2015

This was a focused inspection on the non human primates

An exit briefing was conducted with facility representatives

Additional USDA inspector- DR. ALEXANDRA ANDRICOS, D.V.M

#### Additional Inspectors

Andricos Alexandra, Veterinary Medical Officer
