COUGAR MOUNTAIN
ZOOLOGICAL PARK

Type: ROUTINE INSPECTION

Date: 26-JUN-2025

3.150(a)

Facilities, general.

On May 21, 2025, a female Crane (Alice) flew out of her enclosure in the Magic Forest Crane Exhibit. The bird was recaptured on May 23, 2025 and brought back to the zoo. Housing facilities must employ security measures that contain all birds securely. These measures should be designed to prevent escape of the birds. Birds that are not protected from hazards, which includes escapes and predation may suffer from stress, injury, or death. Correct by ensuring that bird enclosures are maintained in good repair, protect the birds from injury, contain the birds, and restrict other animals from entering who may negatively affect the welfare of the birds within.

Corrected before the time of inspection

This inspection and exit interview were conducted with the facility representatives.
