Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The licensee has an attending veterinarian who has provided veterinary care for the animals. However, there is still no documentation of a formal arrangement with the veterinarian. There is also no written program of veterinary care. Formal arrangements with a veterinarian that includes the frequency of visits to premises and a written program of veterinary care, ensures animals will receive consistent and timely diagnoses and treatment of diseases, illnesses, and injuries. The formal arrangement with the veterinarian must be documented and a written program of veterinary care must be developed by the attending veterinarian for the health and well-being of the animals.

This inspection and exit interview were conducted with the licensee.
