Environment enhancement to promote psychological well-being.

An environment enhancement plan (EEP) has not been established to promote the psychological well-being of the birds.

Failure to establish and maintain an EEP can result in birds not receiving adequate enrichment which can lead to behavior, social, health, and other psychological problems.

Dealers, exhibitors, and research facilities must develop, document, and follow a species appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The licensee must establish and maintain an EEP for the birds.
