Kerns Farms Corp
3354 140 St
Clearfield, IA 50840

Customer ID: **35561**
Certificate: **42-A-1450**
Site: 001
KERNS FARMS CORP.

Type: ROUTINE INSPECTION
Date: 30-SEP-2015

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

All the enclosures in the indoor and sheltered housing are spot had a build-up of brown greasy residue on the walls and egress doors when present. The licensee stated that the whelping enclosures are disinfected between litters and everything else is once or twice a year.

All of the feeders in all the enclosures had food debris and greasy brown buildup. The licensee stated that they are cleaned and sanitized when the enclosures are done.

The build-up of organic material and absence of more frequent sanitization can cause disease hazards.

The licensee must clean and sanitize at least once every two weeks using one of the methods prescribed in paragraph (b)(3) of this section, and more often if necessary to prevent an accumulation of dirt, debris, food waste, excreta, and other disease hazards.

TO BE CORRECTED BY: OCTOBER 14, 2015

The inspection and exit briefing were conducted with the licensee.
