Deer, AR 72628

Customer ID: **44156**

Certificate: **71-A-1314**

Site: 001

FRANKLIN BREEDLOVE, JR.

Type: ROUTINE INSPECTION

Date: 12-AUG-2014

3.1(f)

HOUSING FACILITIES, GENERAL.

The kennel facility consists of one sheltered building. On the western and northern exterior sides of the building there is standing water. There is evidence on the wash down drainage pipe of a leak and the trim on the lower western side of the building is green from moisture. Housing facilities must be equipped with disposal facilities and drainage systems that are constructed and operated so that animal waste and water are rapidly eliminated. Disposal and drainage systems must minimize vermin and pest infestation, insects, odors, and disease hazards. All drains must be properly constructed, installed, and maintained. The dealer must take measures to repair or replace the leak and prevent future leaking and standing water to minimize disease risks and to protect the health and welfare of the animals.

Affects ten adults and fourteen puppies

Correct by August 26, 2014

The inspection and exit briefing was conducted with the Dealer.
