303 Canfield Administration Bldg.  
Lincoln, NE 68588

Customer ID: 1552

Certificate: 47-R-0004

Site: 001

UNIVERSITY OF NEBRASKA, LINCOLN

Type: ROUTINE INSPECTION

Date: 28-SEP-2016

### 2.31(e)(3)

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

IACUC approved protocol 1244 did not contain a complete description of the activities using animals. The protocol stated that an adjuvant would be administered to rabbits but did not state which adjuvant would be used. A later modification to the protocol stated that Freund's Complete adjuvant would be used. A second modification added an additional adjuvant injection for a group of rabbits, stating that "The same methods for injection will be used. The material to be injected will be the same as the initial boost injections; DNA plasmid with adjuvant." The adjuvant was not identified in the modification. The investigator was contacted and stated that a different adjuvant was used for injections subsequent to the initial Freund's Complete adjuvant.

It is the responsibility of the IACUC to ensure that animal activities are in compliance with the Animal Welfare Act. In order to perform this function, a complete description of activities using animals must be included in protocols prior to IACUC approval. The facility should ensure that all protocols contain complete descriptions of animal use.

Correct by December 4, 2016.

An exit briefing was conducted with a facility representative.
