### 2.75(b)(1)

#### Records: Dealers and exhibitors.

At the time of inspection, the facility representative was unable to locate the disposition records for the rabbits, guinea pigs and pot belly pigs sold during the Fall Festival held in October 2022. The facility representative then attempted to contact the licensee by phone and after a short wait the licensee returned her call. I was then able to speak with the licensee and when asked about the location of the disposition records the licensee stated that she threw them out and no longer had them because they did not contain the right information. The licensee thought she may have pictures of the records on her phone but was also unable to locate and provide them. Throwing records away and not maintaining them doesn't allow APHIS officials to review the records and properly track the animals. Exhibitors are required to make, keep, and maintain records that disclose all required information for the animals under their control. Correct from this date forward.

This inspection was conducted with the facility representative and the exit interview was conducted with the licensee.
