

Inspection Report

Aaron J Glick
25766 Hwy 81
Cuba City, WI 53807

Customer ID: **327740**
Certificate: **35-A-0363**
Site: 001
AARON GLICK

Type: ROUTINE INSPECTION
Date: 21-DEC-2015

3.31(b)

SANITATION.

Housekeeping.

***The walls and areas around the heaters had a buildup of cobwebs and dust material. Buildup of cobwebs and dust around the heaters and walls can be a fire risk and does not provide for the safety and health of the animals in the building. At all times maintain the walls and areas around heaters free from excessive cobwebs and dust build-up.

***The area for storing feed and bedding was very cluttered. There was trash scattered around and unopened bags of bedding were no longer stacked on the pallets but were scattered around. A cluttered feed and bedding storage area does not ensure the safety and health of the animals because scattered trash and clutter gives areas for unwanted vermin (such as rats/mice/insects) to hide and could lead to contamination of feed and bedding. At all times the facility must maintain buildings and grounds free from accumulations of trash and free from clutter.

Note: The facility had corrected these non-compliant items prior to the exit interview.

Inspection of animals and animal facility conducted on 12/21/2015 with a facility representative. Inspection of records and exit interview was conducted on 12/22/2015 with facility representatives.
