Environment enhancement to promote psychological well-being.

There is no environmental enhancement program for the thirteen chickens on exhibit to the public. An environmental enhancement plan for birds is required to ensure birds are properly enriched to prevent psychological distress, feather plucking and self-mutilation. Dealers, exhibitors, and research facilities must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides. This plan must be made available to APHIS upon request.

This is a 1st Re-License Inspection for a Class "C" license.
The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by June 22, 2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
