Type: ROUTINE INSPECTION
Date: 01-APR-2024

3.154

Environment enhancement to promote psychological well-being.

The facility has not developed or documented the required Bird Environmental Enrichment Plan (BEEP). The facility does have adequate enrichment logs documenting that adequate activities are in place, but needs to develop and document the BEEP and have the Attending Veterinarian (AV) approve it. Not having the BEEP in place and approved by the AV can result in special considerations and/or social needs of the birds not being met.

The regulations state that exhibitors must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides. This plan must be made available to APHIS upon request. Correct by May 01, 2024.

This inspection and exit interview were conducted with the licensee.
