2.75(a)(1)

Records: Dealers and exhibitors.

Records of acquisition and disposition were not available for any of the dogs or puppies on hand or sold at the time of inspection. Failure to provide this information may interfere with the ability of APHIS officials to identify animals and to trace their movements. Each dealer shall make, keep, and maintain records or forms which fully and correctly disclose the required information concerning each dog purchased or otherwise acquired, owned, held, or otherwise in his or her possession or under his or her control, or which is transported, euthanized, sold, or otherwise disposed of. These records shall be maintained on the Record of Acquisition of Dogs and Cats on Hand (APHIS Form 7005) and Record of Disposition of Dogs and Cats (APHIS Form 7006) and they shall be made available for APHIS inspection.

2.134(a)

Contingency planning.

A contingency plan was not available for review at the time of inspection. Contingency plans help to ensure animals receive proper care during emergency situations. Dealers must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession).

To be corrected by July 14, 2025

3.13(a)

Veterinary care for dogs.

A written program of veterinary care was not available for review at the time of inspection. The program of veterinary care is necessary to ensure all animals are receiving adequate veterinary care to include physical exams, vaccinations, sampling and treatment of parasites, and preventative care. Each dealer must keep and maintain the written program and make it available for APHIS inspection.
