#### Requirements and application.

A search was conducted at an exotic auction open to the public on 4/15/23. There were 3 zebras, a camel, and 5 bison sold without the auction being licensed.

A valid license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. The facility needs to obtain a USDA license or discontinue regulated activities until licensed.

No regulated activities may be conducted until a USDA license is obtained. An application packet was provided and the facility stated they would apply for a USDA license.

Correct prior to any regulated activity.

This inspection and exit interview were conducted with the facility representative.
