Type: ROUTINE INSPECTION
Date: 26-FEB-2024

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A written program of veterinary care was not available for review at time of inspection. The facility representative stated the licensee does employ a part-time attending veterinarian. Failure to maintain required records impedes APHIS officials' ability to perform their duties and fully assess welfare and planned veterinary care of regulated animals. Each dealer shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer.

Correct by 12 March 2024.

2.75(b)(1)

Records: Dealers and exhibitors.

The facility representative stated that certain documents could not be found for inspection and surmised that a previously employed individual likely had taken the records. These required records include the acquisition records of regulated animals. Failure to maintain required records impedes APHIS officials' ability to perform their duties and fully assess welfare and traceability of regulated animals. Every dealer shall make, keep, and maintain records or forms which fully and correctly disclose information concerning animals that are purchased or otherwise acquired, owned, held, leased or otherwise in his or her possession or under his control.

Correct from this date forward of 27 February 2024.

2.134(a)

Contingency planning.

A developed contingency plan was not available at time of inspection. Contingency plans help prepare facilities on how to provide humane handling of animals during emergencies. The dealer must develop a complete contingency plan tailored to the facility and animals on hand. All employees must be trained on their roles and responsibilities within this plan and the facility must maintain documentation of annual reviews of the plan.
