TROY & JODY GRANT

Type: ROUTINE INSPECTION

Date: 01-AUG-2024

---

### 2.1(a)(1)

#### Requirements and application.

This was a search inspection.

The facility has continued to sell wild mammals into regulated activity without an active USDA Animal Care license. The facility was licensed with USDA APHIS Animal Care but failed to complete the Re-license process prior to their expiration date (30-June-2023). Their license was then cancelled, and the licensee was instructed by text message and a mailed letter stating they cannot conduct regulated activity without a license.

Between 1-July-2023 and 1-August-2024, the facility has sold 2 woodchucks, 2 striped skunks, 29 opossums and 2 raccoons to 7 different USDA Animal Care licensees where the animals are being used for exhibition. Additional wild mammals have been sold to non-USDA licensed individuals.

Conducting regulated activity without a USDA license does not comply with the Animal Welfare Act or ensure that APHIS officials can assess the care of the animals. The facility must obtain a license from the USDA to continue conducting regulated activity under the Animal Welfare Act. Continuing to conduct regulated activity without a license is a serious violation of the Animal Welfare Act.

This inspection and exit interview were conducted with a facility representative.
